

Aishat Yusuff

Software Engineer

WORK EXPERIENCE

ecx.io - an IBM Company, Bracknell, UK

Software Engineer

08/2022 – 10/2023

- Spearheaded a custom Slack and Adobe WorkFront integration project in an agile team of 5, using Java and Spring Boot, leading to 20% increase in product management efficiency for a team of 50+.
- Maintained open communication channels with teammates, including project managers, business analysts, and internal stakeholders and clients facilitating overall project success.
- Implemented UI redesign based on test user feedback, resulting in 42% increase in customer satisfaction.
- Led impactful end-of-sprint demos, boosting stakeholder satisfaction by over 88% and increasing company-wide awareness of the integration tool.
- Managed Git version control, conducted code reviews and implemented Jenkins for CI/CD, resulting in a 30% reduction in deployment time and a 15% improvement in overall code quality.
- Ensured code quality and documentation by developing JUnit tests with 90% line coverage and creating comprehensive Javadocs.
- Examined AEM Franklin's features (at product-launch) using JavaScript, crafting documentation that formed over 90% of the team's knowledge on the new product.

VOLUNTEERING ACTIVITIES

Black Girls in Tech, London, UK

Software Engineering Mentor

09/2023 – Present

- Mentors computer science students and career switchers in a highly-regarded 12-week program, providing guidance on technical skills, career development, and industry insights.

PROJECTS

[Todo List API](#) - Java, Spring Boot

12/2023

- Developed a RESTful API for a task management system using Java/Spring Boot, and incorporating MVC pattern to ensure efficient data retrieval and manipulation.

[Wayfarer](#) - HTML, CSS, JavaScript

09/2023

- Designed and implemented a responsive web application for travel enthusiasts using HTML, CSS, and JavaScript.

[Admin Dashboard](#) - HTML, CSS, JavaScript

08/2023

- Created an admin dashboard with interactive charts and graphs using HTML, CSS, and JavaScript (Chart.JS library).

[Student Management System](#) - Java, React, AWS EBS

12/2022

- Developed a student management system using Java (backend) and React (frontend).
- Incorporated AWS Elastic Beanstalk for scalable deployment.

SKILLS

Technical Skill and Tools:

- Java
- Spring Boot
- JavaScript/ React
- SQL
- HTML, CSS
- Tailwind CSS
- Git
- Unit testing (JUnits)
- JavaDocs
- Jenkins (CI/CD)
- Debugging
- RESTful API Integration

Industry Knowledge:

- Agile methodologies (Scrum and Kanban)
- OOP principles
- Design documentation
- Software Development Life Cycle (SDLC)

EDUCATION

Code First Girls, London.

Full-Stack CFGDegree (Distinction) – 06/2022

Manchester Metropolitan University.

MSc. Clinical Biochemistry (Distinction) – 12/2021

Federal University of Agriculture, Abeokuta.

BSc. Biochemistry (Honours) – 04/2018

CERTIFICATIONS

- The Complete JavaScript Course: From Zero to Expert (Udemy).
- Java Programming for Complete Beginners (Udemy).
- JavaScript Essential Training (LinkedIn Learning).
